

The background is a light blue gradient with several realistic water droplets of various sizes scattered across it. The droplets have highlights and shadows, giving them a three-dimensional appearance. The text is centered in the middle of the image.

THE WONDER OF WATER

A MERCY TO THE WORLDS

WHY IS WATER SO SPECIAL?

Every living thing is created from water.

Every living creature is created from water.

Water is essential for life.

Clouds in the sky are water.

We see water come down from the sky.

Water falls to the earth as rain or hail or snow.

Water flows across the earth.

Rain revives the dry earth.

Plants grow.

Animals grow.

We all need water to grow.

We all need water to be healthy.

Water purifies us.

Water is a blessing.

Water is a mercy.

Who brought this water down for us?

Who can bring it back, when water is gone?

How is the life of this world like water?

If all the trees on earth were pens,
and if all the seas were ink,
would the words of our Creator be exhausted?

Prophet Muhammad,
peace and blessings upon him,
was sent as “a Mercy to all the worlds”.

How is his coming like water?

Abu Musa (May Allah be pleased with him) reported:
The Messenger of Allah (ﷺ) said, "The guidance and knowledge with which Allah has sent me are like abundant rain which fell on a land. A fertile part of it absorbed the water and brought forth profuse herbage and pasture; and solid ground patches which retained the water by which Allah has benefited people, who drank from it, irrigated their crops and sowed their seeds; and another sandy plane which could neither retain the water nor produce herbage. Such is the similitude of the person who becomes well-versed in the religion of Allah and receives benefit from the Message entrusted to me by Allah, so he himself has learned and taught it to others; such is also the similitude of the person who has stubbornly and ignorantly rejected Allah's Guidance with which I have been sent."

Sahih Bukhari and Sahih Muslim
